

M-2 Ejector Pins

PCS Company's M-2 Ejector Pins are constructed from wear resistant high speed steel. Pin diameters range from 1/32" through 1/4" with lengths of 6" and 10". These pins are through hardened to 60-63 Rc. The diameters are precisely ground to provide dimensional stability and superior surface finish quality.

Features:

- Material: M-2 High Speed Steel
- Hardness: Through hardened to 60-63 Rc
- Diameter tolerance of .0003"
- Eliminate chipping from form work
- Can be used for ejector pin or core pin
- Unit of Measure - Inch
