Full Color Thermal Set Graphic Plaques

Full Color Thermal Set Graphic Plaques

- Customer specified graphic on rigid aluminum or flexible magnetic plaque
- Capture extreme detail in most color combinations
- For Best Results:
 - Avoid light color combinations such as yellow on white backgrounds
 - Avoid thin red lines on black backgrounds
 - Lines should be greater than .010" in thickness
 - Character height should be greater than .050"
 - Avoid gradient coloring
- Industry proven quality
- Withstands normal injection molding temperatures
- Optional 3M 468 adhesive backing available
- Rigid aluminum plaques available in sizes up to 12" x 24"
- Flexible magnetic plaque available in 4" x 6" & 5" x 8" sizes only
- Plaques are .025" in thickness
- Pre-punched holes available as an included option (mounting screws not included)
- Choice of corner radius or square corner
- Accepted file formats: .jpeg, .tiff, .bmp, .png, .pdf, .ppt, .odg

Note: *Plaque should be cleaned with citrus based cleaner only.*
