

Mold E-Z Connect System

Mold Wiring Made E-Z!

The Mold EZ Connect facilitates the connection, testing, and troubleshooting of electrical connections on the mold.

The system includes: 12 channel switch box, standard 5 pin cables, two styles of limit switches, and a hand held or mounted diagnostic tool. *(Components sold separately).*

Features:

- Simple plug and play system
- Fast wire up of auxiliary mold equipment e.g. lifter, core pull, and slide positioning
- Allows for confirmation of proper wiring
- 24v DC test port for initial setup
- Dip switches on circuit board can be positioned for serial or parallel wiring configurations
- 1 year manufacturer warranty*

Benefits:

- Labor cost savings on wire up
- Reduces mold down time
- Quick mold testing and debugging

**Warranted for one (1) year to be free from defects in material and workmanship.*
