Material Safety Data Sheet

## **NMC-QCru**

This SDS adheres to the standards and regulatory requirements of the United States and may not meet the regulatory requirements in other countries.

### **SECTION 1. PRODUCT AND COMPANY IDENTIFICATION**

Product name: NMC-QCru  
Product Use: Water-borne coating, Release agent  
Manufacturer: Nanoplas, Inc.  
2140 Touhy Ave  
Elk Grove Village, IL 60007  
Transport Emergency : INFOTRAC: 1-800-535-5053 (outside the U.S. 1-352-323-3500)  
Other information : professional use

### **SECTION 2. HAZARDS IDENTIFICATION**

#### Emergency Overview

The thermal decomposition vapors of fluorinated polymers may cause polymer fume fever with flu-like symptoms in humans, especially when smoking contaminated tobacco. Shortness of breath

#### Potential Health Effects

Eyes: May cause eye irritation.  
Inhalation: Causes respiratory tract irritation, and shortness of breath

#### Carcinogenicity

None of the components present in this material at concentrations equal to or greater than 0.1% are listed by IARC, NTP, or OSHA, as a carcinogen.

### **SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS**

Component	CAS-No.	Concentration
Water	7732-18-5	92-97%
Propylene Glycol	57-55-6	0-5%
Proprietary Resins		1-5%

### **SECTION 4. FIRST AID MEASURES**

Skin contact: If on skin, rinse well with water. Wash contaminated clothing before re-use. Consult a physician if necessary.  
Eye contact: Immediately flush eye(s) with plenty of water. If eye irritation persists, consult a specialist.  
Inhalation: Move to fresh air. Oxygen or artificial respiration if needed. Consult a physician.  
Ingestion: DO NOT induce vomiting unless directed to do so by a physician or poison control center. Never give anything by mouth to an unconscious person. Call a physician.  
General advice: When symptoms persist or in all cases of doubt seek medical advice.

### **SECTION 5. FIRE-FIGHTING MEASURES**

#### Flammable Properties

Flash point: does not flash  
Thermal decomposition: 300 °C (572 °F)  
Fire and Explosion Hazard: In fire conditions, toxic decomposition products may be formed. (see also section 10)

[www.nanomoldrelease.com](http://www.nanomoldrelease.com)

Suitable extinguishing media: The product itself does not burn.  
Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Firefighting Instructions: Wear self-contained breathing apparatus (SCBA). Wear suitable protective equipment.  
Evacuate personnel to safe areas.

#### **SECTION 6. ACCIDENTAL RELEASE MEASURES**

NOTE: Review FIRE FIGHTING MEASURES and HANDLING (PERSONNEL) sections before proceeding with cleanup. Use appropriate PERSONAL PROTECTIVE EQUIPMENT during clean-up.

Safeguards (Personnel): Ventilate spill area.

Spill Cleanup: Dike spill. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust).

Accidental Release Measures: Prevent material from entering sewers, waterways, or low areas.

#### **SECTION 7. HANDLING AND STORAGE**

Handling (Personnel): Do not breathe vapors or spray mist. Avoid circumstances that produce respirable particles unless suitable ventilation and respirator are used. Avoid contact with skin, eyes and clothing. Wash hands thoroughly after handling. Remove and wash contaminated clothing before re-use.  
Do not store or consume food, drink or tobacco in areas where they may become contaminated with this material.

Storage: Keep containers tightly closed in a dry, cool and well-ventilated place.  
Do not freeze. Perishable if frozen.

#### **SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

Engineering controls: Use only with adequate ventilation. Do not aerosolize.  
Personal protective equipment

Respiratory protection: Provide adequate ventilation.  
In case of insufficient ventilation, wear suitable respiratory equipment.  
In the case of dust or aerosol formation use respirator with an approved filter.

Hand protection: Material: Impervious gloves

Eye protection: Safety goggles

Skin and body protection: Preventive skin protection  
Where there is potential for skin contact, have available and wear as appropriate, impervious gloves, apron, pants, jacket, hood and boots.

Exposure Guidelines  
Exposure Limit Values  
Polytetrafluoroethylene

AEL \* (NANOPLAS) 10 mg/m<sup>3</sup> 8 hr. TWA Total dust.

AEL \* (NANOPLAS) 5 mg/m<sup>3</sup> 8 hr. TWA Respirable dust.

\* AEL is Acceptable Exposure Limit. Where governmentally imposed occupational exposure limits which are lower than the AEL are in effect, such limits shall take precedence.

#### **SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES**

Form: liquid

Color: white

Odor: slight

Ph: neutral

Freezing point: 0 °C (32 °F)

Boiling point: 100 °C (212 °F)

% Volatile: 95 - 98 %

Specific Gravity: 1

[www.nanomoldrelease.com](http://www.nanomoldrelease.com)

#### **SECTION 10. STABILITY AND REACTIVITY**

Stability: Stable under recommended storage conditions.  
Conditions to avoid: Decomposition temperature 300 °C (572 °F)  
Decomposes on heating.  
Incompatibility: Incompatible with oxidizing agents.  
Hazardous decomposition: Hazardous thermal decomposition products: Silicon dioxide, Carbon oxides, nitrogen oxides (NOx), metal oxides, Sulphur compounds, Methanol , Formaldehyde  
Products: Carbon oxides  
Hazardous reactions: Polymerization will not occur.

#### **SECTION 11. TOXICOLOGICAL INFORMATION**

NMC-QC

Further information: No data is available on the product itself.  
Polytetrafluoroethylene  
Oral LD50: > 11,280 mg/kg , rat  
Skin irritation: No skin irritation, human  
Skin sensitization: Patch test on human volunteers did not demonstrate sensitization properties., human  
Repeated dose toxicity: Oral - feed  
rat  
No toxicologically significant effects were found.

#### **SECTION 12. ECOLOGICAL INFORMATION**

Aquatic Toxicity

Polytetrafluoroethylene: The substance is a polymer and is not expected to produce toxic effects.  
Additional ecological information: No data is available on the product itself.

#### **SECTION 13. DISPOSAL CONSIDERATIONS**

Waste Disposal: In accordance with local and national regulations.  
Environmental Hazards: If recycling is not practicable, dispose of in compliance with local regulations.

#### **SECTION 14. TRANSPORT INFORMATION**

Not classified as dangerous in the meaning of transport regulations.

#### **SECTION 15. REGULATORY INFORMATION**

TSCA Status: On the inventory, or in compliance with the inventory  
Title III hazard  
Classification: Acute Health Hazard: Yes  
Chronic Health Hazard: No  
Fire: No  
Reactivity/Physical hazard: No  
Pressure: No

#### **SECTION 16. OTHER INFORMATION**

HMIS  
Health: 1  
Flammability: 0  
Reactivity/Physical hazard: 0  
PPE: Personal Protection rating to be supplied by user depending on use conditions.
