

BEST RESULTS - USE WITH SCALEBREAK® DESCALERS

ScaleBreak PulseFlo™ GDS-160 Mid-sized Power with Freshwater Flush Convenience

The ScaleBreak PulseFlo™ GDS-160 is a compact and powerful clean-in-place (CIP) pump system. Constructed from durable, chemical-resistant polyethylene and equipped with acid-proof components, it is engineered for long service life in demanding industrial environments. It features an innovative integrated flow reversal valve to instantly reverse flow direction, improving cleaning efficiency by helping dislodge deposits and clearing blockages faster—without disconnecting hoses or stopping circulation.

Its integrated freshwater port streamlines post-cleaning rinse-out. With a simple valve adjustment, fresh water can be introduced to flush the system or discharge without altering hose connections, reducing handling time and enhancing operator safety.

The onboard tank helps manage foam and CO₂ gas release during descaling, reducing the risk of vapor locks or trapped air pockets and accelerating chemical performance for faster results. The GDS-160 is built for mid-sized descaling applications with 50-120-gallons volume, such as modular chillers, condensing boilers, and steam generators. Paired with ScaleBreak® chemical, the GDS-160 pump system offers a complete maintenance solution.

GDS-160: Scale Removal System including 15-gallon

Note: Chemical goggles must be worn when using this machine.

APPLICATIONS

- Steam generators
- Small shell & tube heat exchangers
- Small package boilers
- Brazed plate heat exchangers
- Modular chillers

FEATURES

- Acid proof pump and fittings
- Innovative flow reversal valve
- Integrated fresh water flush
- Compact design for easy transport and storage
- Venting cap for closed systems

GDS-160	
Motor Power	1.34 HP
Input Power	Standard: 13.5 amps, 115V, 60 Hz AC Optional: 4 amps, 230V, 50 Hz
Power Supply Cord	18', 14-3
Flow Rate	25 GPM / 79 liters per minute
Working Pressure	30 PSI
Pump	Centrifugal
Tank Capacity	15 gallons
Dimensions	22" deep x 15.5" wide x 34" high
Weight	55 lbs
