

Rust Preventatives

PCS Company's Defender No Dye is a semi-dry, dual-purpose rust preventative designed for long-lasting protection without bleeding through. Formulated with an acid vapor neutralizer, it defends against PVC, corrosive materials, and fingerprints. Its clear film allows for easy removal prior to equipment start-up. For extended protection, apply two coats. *Note: Aerosol cans are not eligible for air shipment.*

Features

- Clear film
- Moisture displacing chemistry
- Does not mitigate or cause bleed-through
- Semi-dry for longer lasting protection
- Protects when molding PVC, flame-retardant resins, or other corrosive materials
- Up to 2 years of protection under normal storage conditions
- Easy removal
