

Socket Type Water Jumpers

Features

- Eliminates bulky hose loops
- Compact Design neatly and safely holds cooling lines close to the mold surface
- Stock only one part number for any hose size
- Compatible with all major mold connection systems
- Viton Seals provide for temps up to 400°
- All brass and stainless steel construction

Socket Type Water Jumpers have a compact design that neatly and safely holds cooling lines close to the mold surface. The coupler sleeve twists to lock, preventing accidental disconnect. These Water Jumpers are for use with Push-Lok hose and do not require any hose clamps.

Swivel Type Water Jumpers

Features

- Recessed to prevent damage or accidental disconnect
- Eliminate crimped hoses and setup errors
- Viton O-ring seals
- All brass construction
- Easy hex key installation

Swivel Type Water Jumpers have an all brass construction. The swivel body allows for installation where space is limited. These Water Jumpers are recessed to prevent accidental disconnect or damage and the adjustable thread allows for perfect positioning.
