

Cycle Counter

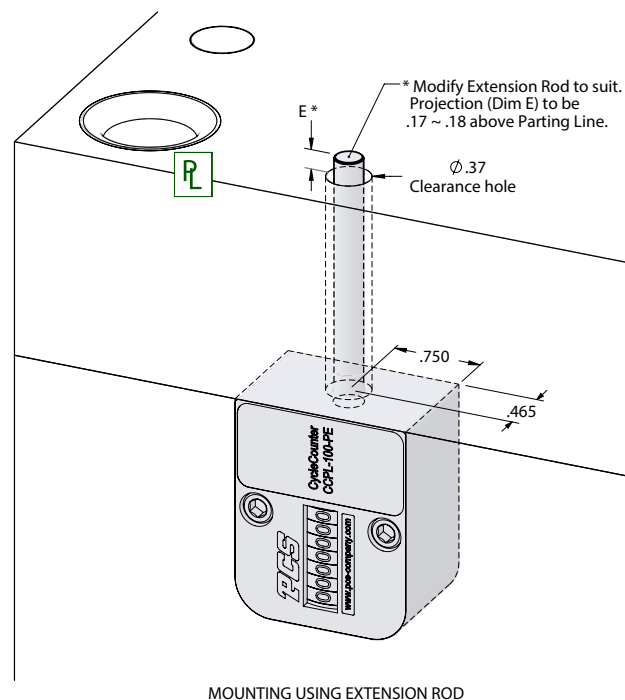

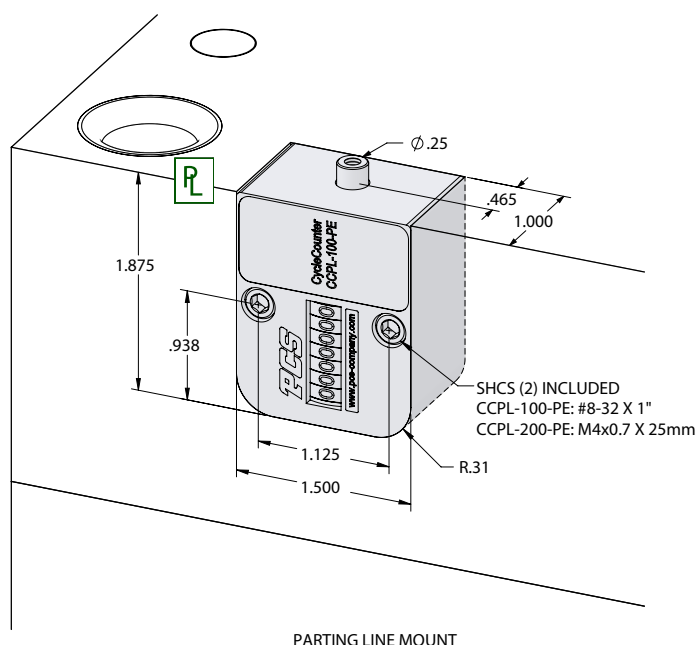

PCS Company's Cycle Counter is a 7-digit, non-resettable mechanical counter that tracks mold open/close cycles. It mounts easily to the mold and records each closure by incrementing the count. Available in inch and metric versions, each includes an 8" (203.2mm) extension rod for flexible mounting on the parting line, support plate, or ejector housing rail.

Features

- Unit of Measure: Inch and Metric
- 8" (203 mm) extension rod (machinable)
- Tool I.D. plaque comes standar
- Industry standard footprint
- Accurately monitor mold cycle count
- Parting line mount for easy visibility
- Maximum Operating Temperature: 250°F (120°C)
- Two mounting screws included (inch or metric)
- Limited Lifetime Warranty
