Subject: FDA Food Contact Compliance Status of PCS Liquid Purge & PCS Liquid Purge TP

To Whom It May Concern:

To the best of our knowledge, purging compounds are not regulated by the US Food & Drug Administration (FDA). Please keep in mind that purging compounds are designed for use as cleaning and maintenance products for polymer process equipment and are not intended for use as components of finished plastic products or articles.

While purging compounds are not FDA regulated, the products listed above have been formulated exclusively from FDA regulated component substances. These include food grade substances, substances that have been cleared for use as indirect food additives (21 CFR Parts 175 through 178), and substances that are considered to be Generally Recognized as Safe (GRAS) in Food (21 CFR Parts 182 and 184). Furthermore, none of the component substances of the products listed above have been listed by IARC, NTP, OSHA, or ACGIH as a carcinogen, and none have been listed as carcinogenic or toxic to reproduction under the California Safe Drinking Water and Toxic Enforcement Act (Proposition 65).

Please contact us if you need additional information in order to determine the regulatory compliance status of PCS Purge products in your particular application.

Sincerely,

PCS Company

The following supersedes Buyer's Documents. The information contained herein is believed to be reliable. However, PCS Company makes no warranty, whether expressed or implied, including warranties of merchantability or of fitness for a particular purpose, for the product or products referred to herein. Users should undertake sufficient verification and testing to determine the suitability for their own particular purpose of any information or products referred to herein. No statements or recommendations contained herein are to be construed as inducements to infringe any relevant patent, now or hereafter in existence. Under no circumstances shall PCS Company be liable for incidental, consequential, or other damages from alleged negligence, breach of warranty, strict liability, or any other legal theory, arising out of the use or handling of the product or products referred to herein. The sole remedy of the buyer and sole liability of PCS Company for any claims shall be limited to the buyers purchase price of the product which is subject of the claim or the amount actually paid for each product, whichever is less. Technical advice furnished by seller shall not constitute a warranty, which is expressly disclaimed, all such advice being given and accepted at the buyer's risk.
