Hot Runner Systems Warranty

PCS Company Warrants its Hot Runner systems against defects in material and workmanship for a period of one (1) year from date of shipment, provided the system is properly run and regularly maintained every 3-6 months.

During the warranty period, if the system fails, PCS must be notified immediately to determine actions to be followed. All damaged components must be returned to PCS for credit within the warranty period.

PCS does not warrant the Hot Runner system against damage caused by: corrosion, contamination, misapplication, improper processing practices or operating conditions beyond our control and knowledge. PCS does not warrant against wear items such as tips, needles, valve pins, and/ or valve pin seal bushings.
